REPORT OF THE MINE ACTION CO-ORDINATION CENTRE, SOUTH LEBANON for the MONTH OF APRIL 2006

GENERAL

1. The DMA Initiative team of MACC SL was able to raise around \$15,000 from the fundraising Gala Dinner that was held on the 4th of April in Beirut to commemorate the first International Day for "Mine Awareness and Assistance in Mine Action".

National Demining Office

2. NDO hosted the national standards workshop from 24-28 April. Mr. Phil Bean and Mrs. Vera Bohle from GICHD will assist the NDO in drafting the standards. MACC SL PM and Chief of Ops also participated on 25 and 27 Apr.

UNIFIL, Demining Co-ordination Cell, OGL

- 3. UKRBATT were fully repatriated during this month and were replaced with a contingent from China. The MACC SL has recently received a request from UNIFIL to provide support to DCC and CHINBATT for the training and eventual accreditation evaluation of the CHINBATT demining capability. This training will address all issues identified in the Pre-Deployment Visit (PDV) report written by the MACC SL Chief of Operations in Mar 06. The objective of this training will be to fully accredit CHINBATT in accordance with National Technical Standards and Guidelines. It is expected the writing of new SOP's, the re-training and eventual accreditation evaluation of CHINBATT to take eight to ten weeks to complete.
- 4. The MACC SL continues to provide OGL with close Mine Action Support in regard to IMSMA training and providing up to date mine information.

VISITS/TRAINING

5. MACC SL PM and Chief of Ops met with UNIFIL Deputy Force Commander and Chief of Ops on the 5th of April to initiate discussions regarding CHINBATT training and accreditation.

PO Box 300, Avenue du Senegal, Tyre, Lebanon Tel: +961 7 349276 / 349456. Fax: +961 7 349459 6. On 26th April, MACC SL Planning Officer conducted a brief for students from a Norwegian University. The students were interested to know about the work that MACC SL does, and the mine/UXO situation in South Lebanon.

PROPOSED AREA 6

- 7. The overall area is now broken down into six separate, sub-sectors, that may be operationalised individually or all at once. The new Lebanese government has now begun formal representation to various GCC countries to secure the necessary funding assistance to complete clearance of this remaining mine/UXO contaminated area in South Lebanon.
- 8. The concept note prepared by MACC SL and UNDP Socio-economic Rehabilitation Programme for South Lebanon for a proposed demining and socio-economic rehabilitation project in South Lebanon supported by the Japanese supported, United Nations Human Security Trust Fund (UNHSTF) has been approved and UN HQ are now working on submission of the full Proposal document. It is hoped to be able to implement this much-needed project in the coming months.

OPERATIONAL CAPACITY

Mines Advisory Group (MAG)

- 9. MAG clearance teams continue operations in Area 6 with the manual teams working near the villages of Sejoud, and Kfar Roummane. The Minecat flail completed the verification task in Yohmor and is now operational in Sejoud conducting further verification tasks. MAG had a one week block leave period this month for all demining teams to account for the numerous National Holidays.
- 10. The training of the new DFID funded demining team will commence 2 May 06 and will continue until Wednesday 24 May with accreditation evaluation of this team on Thursday 25 May. MAG will train 20 students on the course and will eventual select 8 deminers for the new team. These 8 deminers will be those students that attained the highest overall results for the entire course.

LAF Survey/Sampling Team

11. The LAF Survey Team continues clearance in the village of Marun Ar Ras adjacent to the Blue Line. This minefield was laid in the 1970's and therefore the pattern has been some what disrupted in the 30+ years. Due to the high contamination of metal in the ground the team conducts clearance by full excavation.

Quality Assurance

12. The MACC SL QA Officers continue with weekly QA evaluations of all clearance sites within the Area of Operations. This currently consists of the LAF Survey Team, the MAG manual clearance teams and the MineCat flail. As CHINBATT has yet to be accredited they are not as yet subjected to QA by

- the MACC SL. However once they have passed accreditation they will also undergo routine QA evaluations.
- 13. Once MAG have completed the planned re-structure of their manual clearance teams they will undergo re-accreditation.
